### RUBBER OUTSOLE SCUFF CAPS EVO

It is obvious that the heavy duty pattern of this hard-wearing, up to 300°C heat resistant HRO rubber outsole has been designed for optimum safety and performance, especially on unsecured grounds.

### SCUFF CAP

Extra high scuff cap for wearers who kneel a lot during their work.

### VOLUME PLUS<sup>48</sup>

The special shape of the last provides more space to the small toes and the ball of the foot. This extra comfort is available up to size 48.

### COA.TEX® MEMBRANE

The durable, water resistant and windproof high-tech membrane is particularly breathable and protects the foot from waterlogging through a microporous fabric structure. The membrane transports sweat and moisture to the outside. What remains is a pleasantly dry and comfortable foot feeling.
